Revolutionary
Clarisonic PRO Skin Care Brush System

Available at

Turn Back Time Medispa.

Clarisonic benefits

- * 6X more makeup removal
- * Leaves skin soft and smooth
 - * Deep Cleaning
- * Improved product absorption
 - * Gentle for use twice daily
- * Reduces oily skin, dry skin patches and blemishes
- * Reduces the appearance of visible pores
- * Reduces the appearance of fine lines and wrinkles

The Clarisonic PRO Cleansing System removes 6 times more makeup than manual cleaning, aids in the reduction of oily areas, dry skin patches, and blemishes.

The Clarisonic PRO has 3 power levels and cleanses deeply without abrasion or harsh chemicals. It's gentle enough for daily use and is safe for use on skin with acne, rosacea, seborrheic dermatitis

Call 847-681-8700, to schedule a complimentary consultation with one of our Medical Aestheticians to feel and see the results for yourself.

Taken from the Sonicare company web page:

"The creators of Sonicare® revolutionized the oral care market and are now redefining clean, healthy skin with Clarisonic.

While cleansing is the first step in any skin care routine, it is often overlooked and undervalued. With typical manual cleansing, dirt and oil are not as effectively removed and may become trapped in your pores and fine lines. Whether it is sun damage, drying detergents, harsh pollutants, or oil and bacteria, they are all doing their part to wreak havoc on your skin.

Clarisonic is the sonic technology proven to gently yet effectively loosen dirt and oil to clear your pores. The Clarisonic Skin Care Brush uses a patented sonic frequency of more than 300 movements per second to clean, soften and smooth your skin. In just 60 seconds a day, the Clarisonic micro-massage action cleans more than twice as effectively as manual cleansing.

In addition to cleaner skin with the Clarisonic, you'll notice a reduction in the appearance of pores, improved skin tone, a reduction in the appearance of fine lines and wrinkles, and improved absorption of serums and moisturizers.
